

SootheAway™

Continuous Thermal Therapy™

Introducing SootheAway™

The first drug-free, in-home source of continuous, targeted heating or cooling therapy that offers your patients soothing pain relief at the push of a button.

SootheAway™ administers heating or cooling therapy at the optimum temperature for migraine relief by continuously circulating water through comfortable, therapeutic pads. The 3 migraine pads are specially designed to bring relief to any of the four migraine trigger sites (Forehead, Temples, Occipital Region, and Eyes).

SootheAway™ is:

- Heating and cooling therapy with more convenience, more consistency, more effectiveness and less mess than traditional solutions used by your patients
- The only product of its kind that is targeted to migraine sufferers
- A Drug-free alternative for patients that
 - a. don't want to or can't afford to take drugs,
 - b. can't take drugs because of other symptoms or conditions,
 - c. have become immune to drugs, or
 - d. have experienced low efficacy or harsh side effects from existing drugs
- Quick and Convenient – to provide relief while waiting for other treatments to take effect
- Designed to provide optimal temperature relief – controlled by the user, but regulated by the device to between 40 and 125 degrees (eliminates the risk of harming the skin by burning or freezing)
- Available for purchase using flex spending money
- Designed by a world-renowned physician and migraine research pioneer

Pads specifically designed for migraine trigger points

"It was a pretty severe headache and I was shocked at how much it relieved the pain... even when I took it off."

—Jane S. 15-year Migraine Sufferer

"It is nice to have an alternative to drugs, and it is nice to find quicker relief, be able to function, and not be down and out for the whole day... I wish I had access years ago."

—Debbie H. 30-year Migraine Sufferer

"It was easy to put together... and within 30 minutes of getting home, I had it wrapped on the temples on the coldest setting and it was just wonderful, I mean it really is a wonderful machine."

—Carrie B. 15-year Migraine Sufferer
